

MB ROLAND DISTILLERY

Kentucky Straight Malt Whiskey

A sweet and delicate whiskey, this malt whiskey is made in the style of a Pre-Prohibition era spirit; uncut, unfiltered, and bottled at distillation and barrel proof.

MB Roland Kentucky Straight Malt Whiskey is full bodied and barrel proof, yet contains light notes of fresh cut hay, spices, malt and brown sugar. Each batch is a combination of 5-10 barrels and usually proofs between 105-115 (52.5-57.5 ABV). Each bottle is hand labeled and numbered, with full transparency on the label. Enjoy neat, over ice, or with a splash of water.

Barrel Proof (52.5-57.5% ABV/105-115 Proof)
Available in 750 ML

NOTES:

MB Roland Distillery is Kentucky's first post-prohibition "grain to glass" craft distillery, located in Pembroke, Christian County. We take pride in making every product from scratch without the addition of GNS or "found" spirits. Locally grown food-grade white corn is used in each product, which we pick up from the granary located about 5 miles down the road from the distillery. The distillery was founded in 2009 by husband and wife team, Paul & Merry Beth (Roland) Tomaszewski.
