

MB ROLAND DISTILLERY

Kentucky Straight Wheat Whiskey

A delicious wheat whiskey, created using locally grown red winter wheat. Pot distilled, bottled uncut and unfiltered at distillation and barrel proof, this whiskey is full bodied and full of flavor.

MB Roland Kentucky Straight Wheat Whiskey is created in the style of a Pre-Prohibition whiskey, bottled uncut, unfiltered and barrel proof. The result is a unique, very full-flavored whiskey that typically ranges between 105-115 proof (52.5-57.5% ABV). Our wheat whiskey contains notes of fresh bread and brown sugar, sorghum syrup and sweet cocoa. Each batch is a combination of 5-10 barrels, hand labeled, numbered and individually proofed. Enjoy neat, over ice, or with a splash of water.

Barrel Proof (52.5 – 57.5% ABV/105-115 Proof)
Available in 750 ML

NOTES:

MB Roland Distillery is Kentucky's first post-prohibition "grain to glass" craft distillery, located in Pembroke, Christian County. We take pride in making every product from scratch without the addition of GNS or "found" spirits. Locally grown food-grade white corn is used in each product, which we pick up from the granary located about 5 miles down the road from the distillery. The distillery was founded in 2009 by husband and wife team, Paul & Merry Beth (Roland) Tomaszewski.
